Explanation of symbols used:—C=Cases D=Deaths

NEW DELHI 2 (INDIA)

The 17th September 1951

K. MITRA,

For Registrar General India.

NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioner, Simla.

3½%

TEN-YEAR TREASURY SAVINGS DEPOSITS

AC.275

TODAY'S BEST INVESTMENT FOR SMALL SAVERS

Births and deaths from principal diseases in towns with a population of over 30,000 in India for the week ending the 23th August, 1951.

* In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

Explanation of symbols used :—B = Births; B.R. = Birth Rate; C. = Cholera; S. = Smallpox; P. = Plague; F. = Fever; D.D. = Dysentery and Diarrhoea; R.D. = Respiratory Diseases; M.D. = Malarial Deaths; D.R. = Death Rate; I.D. = Infantile Deaths (included in total deaths).

REMARKS

The figures of births and deaths shown in this statement for week ending the 25th August, 1951, relate to 188 towns with an estimated population of 25,381 thousands. The total number of towns is 236 and their population is 29,440 thousands. Thus 80% of the total number of towns representing 86% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 18,333 and 8,944 representing birth and death rates of 37.6 and 18.3 per thousand of population respectively.

(A) States (Parts A & C).—The data here relate to 167 towns with an estimated population of 22,346 thousands. Information about Assam and Bihar could not be included. The total number of towns is 202 and their population is 25,128 thousands. Thus 83% of the total number of towns representing 89% of the total population is covered. The numbers of births and deaths recorded in these towns were 16,744 and 8,203 representing birth and death rates of 39.0 and 19.1 per thousand of population

respectively. The table at the end gives the position by States.

Nellore in Madras was the only town which had a high death rate of 55.1 per thousand of population and this high death rate was largely due to deaths from fevers.

(B) States (Part B).—The data here relate to 21 towns with an estimated population of 3,035 thousands. The total number of towns is 34 and their population is 4,312 thousands. Thus 62% of the total number of towns representing 70% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,589 and 741 representing birth and death rates of 27.2 and 12.7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
